Guided excursion through the largest water fountain compound in the world, certified by Guinness World Records.

Here you will enjoy a wonderful display of water, lights, music and images presented at Reserve Park, one of Lima's most beautiful urban areas.

Ornamental fountains beyond comparison, of which powerful streams combine with the rhythm of the classical music, as the spectacular lasers merge with the water flow to draw amazing multicolor forms that, within a few minutes, can easily transport you to a cybernetic future.

This Recreational Compound has over a dozen fountains, each with its own display of geysers throwing water above 80 meters high. By virtue of its wonderful features, the World Record Guinness certified this park as the largest Water Fountain Compound in the world, an important award that makes us very proud.
